Project [REDACTED]

1. This office has been informed that no action has been taken to implement the project for a complete bibliography of current Soviet periodicals, responsibility for which was charged to the Office of Operations by the action of the Projects Review Committee in Project OO-48 which was approved by the Director on 23 December 1947, and published to your offices by memorandum dated 26 December 1947.

2. By memorandum dated 30 January 1948, subject as above, signed by the Assistant Director for Operations, concurred in by Captain [REDACTED] of ORR and Colonel Hoberg of GCD, the statement was made that the Foreign Documents Branch, Office of Operations, should be able to undertake this additional responsibility on a continuing basis and that the project could be assigned a high priority to allow FDR to keep the material up to date.

3. In view of the fact that your offices have been apparently waiting for further instructions prior to implementing this project, it is desired that immediate action be taken to put into effect the approved action of the Projects Review Committee on Project [REDACTED] dated 26 December 1947, and that a statement of requirements be provided the Office of Operations by the Office of Reports and Estimates at the earliest possible date as a basis for the preparation of the bibliography in question.
